

Starship-19 Redesignation Historic Documentation
Table of Contents
(as of 5 September 2023)

Dr. Laslie,

So that there is plenty of documentation in the historical archives related to the 2023 redesignation of CS-19 from "Wolverines" back to "Starship" - here is an email with a high-level timeline (from March 2021 to August 2023) and the 39 main operative documents (32 PDF documents – one with 39 photographs from the ceremony - and 7 image files) from the effort.

I know that this level of documentation is probably way more information than you need – but I decided to shoot high just in case - since I had it all readily available.
